Artworks Compendium
2013°2023

This catalogue is a collection of my artistic endeavors over the past ten years.

Here, I present to you a selection of images that have deeply resonated with me, creating a desire to gather them in this tiny compendium.

Drawing inspiration from life's journey and philosophical contemplations on intuition, consciousness, and reality, these artworks reflect my inner world.

Words may fall short, for my creations speak directly to the soul. If a visual connection ignites within you, then I have succeeded in my artistic pursuit.

Behind each piece lies a tale waiting to be unveiled, and I'd be delighted to share them with you someday. But for now, let the enigma surround you, and may you find joy in this visual odyssey.
